

DECconnection

A professional association for working organizations for former Digital Equipment Corporation employees

Maynard Library to Host Zoom Talk on History of Digital on Monday, June 14, 2021 at 7 pm Eastern

We were contacted by Jeremy Robichaud, reference librarian at the Maynard Public Library, about their upcoming event about Digital. They'd like all Digital alums to be able to participate - it's on Zoom, free, and should be a fun trip down memory lane as well as possibly learning some unfamiliar DEC folklore.

Enjoy! [Registration Link](#)

Maynard Sesquicentennial History Series

Digital Equipment Corporation

presented by

David Mark

Monday June 14, 7 pm via Zoom

Maynard author and historian David Mark will speak about the rise and fall of Digital Equipment Corporation in Maynard, a 41-year arc that started in 1957 with Kenneth “Ken” Olsen and Harlan Anderson renting space in the mill buildings. Digital peaked in size and sales in 1990 with the mill complex being the world headquarters of a 125,000 employee empire, making Maynard the “Minicomputer Capital of the World.”
